We had a wonderful holiday in Egypt. These are my opinions about three of the most interesting places. The Valley of the Kings in Luxor is one of the most popular places for tourists to visit. We went early

because that is the quietest time. My brother said, "This is **fantastic**!" I am sure it gets busier later on during the day.

The biggest place we went to was the Karnak Temple. My favourite part was the Hypostyle Hall, a 5,000-square-metre "room" with 134 stone columns. I think **it** was more crowded than the Valley of the Kings.

"The Egyptian Museum"

The Egyptian Museum is the oldest museum in Cairo. It opened in 1835. There were more than 16,000 of Egypt's most valuable treasures on display. However, the museum didn't have space for 100,000 other objects. So we needed a new bigger museum. In 2019, the Grand Egyptian Museum welcomed its first visitors. It is further from the city centre than the old museum. But it is two km from the Pyramids at Giza. One of the most beautiful parts of the museum is the entrance.

7

"A wonderful holiday"

We had a wonderful holiday in Egypt. We visited the Valley of the Kings in Luxor. It is one of the most popular places for tourists. We saw many of them there. The place is quiet in the early morning but it gets busier later

during the day. The biggest place there is the Karnak Temple. There 's a nice and quiet place called Habu Temple. It has columns similar to those at Karnak, but it is less crowded. I liked it most.

Unit 9

"A future plan for holiday"

8

Next year, I am going to go trekking across Sinai. It's going to be a great adventure. I'm going to go with my friends. We are going to sleep in a tent and stay with Bedouin families. We are going to have a guide to help us find the way and a camel to carry food and water. We are going to climb Mount Catherine. The journey is going to take me around forty five days.

9

"An adventure sport"

Last year, I went to South Africa with my family. It was beautiful there. Our first day was an adventure. We went trekking in the mountains. When we started, it was sunny. But when we reached the top of the mountain, there were dark clouds. After that, the rain began and there was a storm. The rocks were wet and my brother fell down and hurt himself. The following days, the weather was better. I went zip lining. I was a bit frightened, but I was excited.

Unit 10

10

"Deir el-Medina"

Deir el-Medina was a village in ancient Egypt. The people in this village worked in the Valley of the Kings. The doors of their houses were made of wood and the walls were made of bricks. The people painted their houses white and the doors red. The houses had a kitchen and a living room. People slept on the roof because there weren't any bedrooms.
It was very hot at night. They got their water from the Nile valley because there weren't any taps.

"Technology in the future"

11

In the future, we will go to the moon for our holiday instead of the beach. There will be rockets that leave Earth every day. The rockets will be very fast, so the journey will take only around twelve hours. There will be also driverless cars. People will not drive a car. It will be safer. People will read a book or watch TV when the computer in the car drives it. There will be drones to bring food and parcels to the houses.

Unit 11

"Sea animals"

12

There are a lot of animals that live in the sea. Some sea animals are dangerous like sharks. The shark is one of the most dangerous sea animals in the ocean. A shark uses more than 20,000 teeth in its life. A stingray is a big, flat fish. When it knows a shark is coming, it jumps out of the water. A sea turtle has a hard shell to protect it. Some sea animals are poisonous and sting you when you touch it like the jellyfish.

"Plastic"

13

Plastic is important ! We use it for many things. We must put the plastic in the trash bin. We mustn't throw plastic on the beaches. Plastic is poisonous when animals eat it. More than 100,000 sea animals and birds die from plastic. Plastic stays in the environment for a very long time. We must use other materials like paper and glass. Paper and glass are easier to recycle. We must do our best to save our planet.

"Planting a tree"

14

We plant trees to keep our environment clean. Trees make the air healthy. There are many steps to plant a tree. First, wash the plastic pot and dry it. Second, put some small stones at the bottom of the pot. Press your finger to make a hole and put the seed in the hole and cover it with

soil. Finally, put the pot outside in a warm place. Water it every day but don't give it too much water.

15

"Nature reserve"

We have nature reserves to protect our birds, plants and animals. Many animals live here so we must be careful about what we do. We mustn't make a lot of noise. Noise makes animals feel frightened. We mustn't leave the road through the reserve because there are animals and birds that live in the plants next to the road. We mustn't give any food to the animals or birds. We must take all our rubbish with us when we leave.

Unit 12

16

"My dream job"

My uncle has got a very interesting job. He is an engineer. An engineer is a person who designs machines and engines. My uncle designs engines for planes. I like his job so much. I'd like to be an engineer one day. I hope that I pass my exams so that I can go to university. I'm going to work hard to achieve my dream. I want to get a good job and do many projects.

17

"A marine biologist's job"

A marine biologist is a person who studies the ocean, the plants and animals in it. He is good at science and he loves the ocean. The ocean has many animals that are really beautiful and interesting. So the marine biologist does many researches to help protect the plants and animals in the ocean. In his job, every day is different ! Some days, he goes diving around coral reefs.
